

Confirmation from supervisor on the equivalence of a degree acquired abroad (§§ 5, 6 (2) PromO 2023)

Name of applicant:

has presented me her/his Transcript of Records, the examination certificates and the thesis.

After the evaluation of the documents, I recommend that the from abroad acquired degree, should be recognised as equivalent to the following degrees completed at a scientific university in the jurisdiction of the German Basic Law without further requirements:

Master of Science or diploma in the field of physics (according to §5 (1c) PromO 2023)

Master of Education with the career goal teaching profession at secondary schools and comprehensive schools in the field of physics according to § 61 (2) (2) HG or equivalent (according to § 5 (1c) PromO 2023)

Master of Science or diploma in a related field according to § 61 (2) (2) HG (according to §5 (1d) PromO 2023)

or

After the evaluation of the documents, I recommend the following academic performances as requirements, as I was not distinctly able to determine an equivalence based on the documents.

the submission of the documents for further evaluation by two university lecturers (according to §7 PromO 2023) (time: 3 months)

an oral exam* in the field „experimental physics“ (30-45 min, time: 6 months)

an oral exam* in the field „astronomy/astrophysics“ (30-45 min, time: 6 months)

an oral exam* in the field „theoretical physics“ (30-45 min, time: 6 months)

successful attendance at the following course: (time: 12 months)

*Two university lecturers (§7 PromO 2023) are appointed as examiners.

The presented thesis is equivalent to a master or diploma thesis in the field of physics at the RUB.

or

The presented thesis is not equivalent to a master or diploma thesis in the field of physics at the RUB and I therefore recommend the following requirement:

Preparation of a written thesis, which is equivalent to a master thesis (in accordance with the PO Master of Science in physics, time: 12 months) OR preparation of an accepted first author publication in one of the following journals (time: 12 months):
