

**Confirmation from supervisor on the equivalence of a degree acquired in a physics related field (§§ 5, 6 (2) PromO 2023)**

Name of candidate:

has presented me her/his Transcript of Records, the examination certificates and the thesis.

Acquired degree:

After evaluation of the documents, I recommend the admission without requirements, as I can distinctly confirm the necessary knowledge in experimental or theoretical physics based on the documents.

or

After evaluation of the documents, I recommend the following academic performances as requirements, as I could not distinctly determine the knowledge in experimental and/or theoretical physics based on the documents.

the submission of the documents for further evaluation by two university lecturers (according to §7 PromO 2023) (time: 3 months)

an oral exam\* in the field „experimental physics“ (30-45 min, time: 6 months)

an oral exam\* in the field „astronomy/astrophysics“ (30-45 min, time: 6 months)

an oral exam\* in the field „theoretical physics“ (30-45 min, time: 6 months)

successful attendance at the following course or courses: (time: 12 months)

.....  
.....

\*Two university lecturers (§7 PromO 2023) are appointed as examiners.

The presented thesis is equivalent to a master or diploma thesis in the field of physics at the RUB.

or

The presented thesis is not equivalent to a master or diploma thesis in the field of physics at the RUB and I therefore recommend the following requirement:

Preparation of a written thesis, which is equivalent to a master thesis (in accordance with the PO Master of Science in physics, time: 12 months) OR preparation of an accepted first author publication in one of the following journals (time: 12 months):

.....

..... (Date, Signature Supervisor)
